

## Revolutionize Your Staffing Efficiency

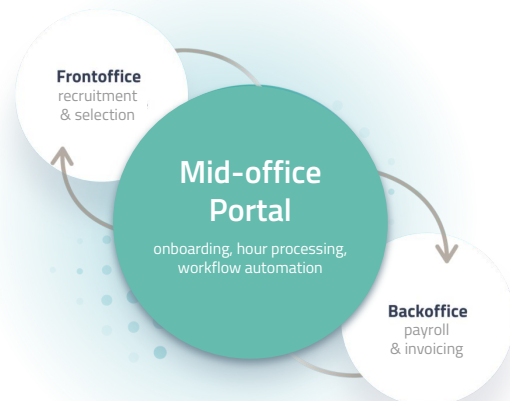

Workflow Automation & Time  
Powered by Akyla

Accelerate growth through streamlined staffing operations & effortless candidate, client and compliance management

### Today's Challenge:

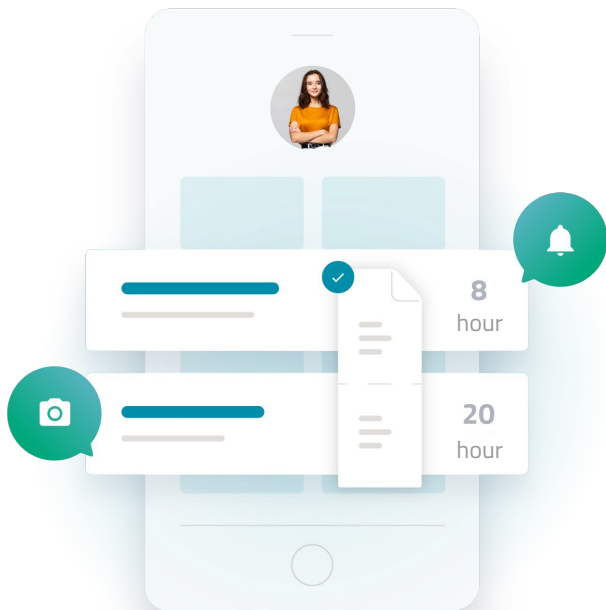

Successfully navigating the fast-paced staffing industry requires effectively managing candidate onboarding, compliance, and operational efficiency. Yet, tackling this challenge is far from easy. Manual procedures, fragmented data, and ongoing compliance risks pose obstacles that can hinder productivity and scalability.

## A single portal for onboarding, time capture and workflow automation

Streamline processes, ensure compliance, and enhance customer satisfaction. Stay ahead of the competition with automated tasks, seamless compliance, and a customized portal.

Boost efficiency, compliance, and satisfaction.

## About Textkernel

Textkernel is a global leader in AI-powered recruitment and HR technology, delivering innovative solutions to over 2,500 software vendors, corporate and staffing organizations worldwide. Our expertise lies in multilingual parsing, semantic search, skill and profession taxonomies, labor market intelligence and automated candidate engagement, and a mid office solution for staffing companies. We empower recruiters to build diverse teams, minimize biases, and connect people and jobs better. With tailored modular solutions and ongoing support, we help our clients achieve their recruitment goals at lower costs.
