textkernel

Bullhorn

Get more value out of Bullhorn with seamlessly integrated Al powered solutions

SOLUTION OVERVIEW

Used by 7 of the top 10 largest Global Staffing firms, Textkernel solutions help you:

- Boost recruiter efficiency and get more out of your Bullhorn database in less time
- Get the market intelligence insights you need to plan your business strategy directly in Bullhorn
- Find new business leads without ever leaving the CRM

textkernel

Go far beyond Boolean and boost sourcing with Semantic search

Automatically include all synonyms and related terms without any additional work

- ✓ Helps you find relevant candidates faster
- Find what you mean, not just a keyword you type
- With Textkernel's synonyms and related terms, a simple two word search turns into a twenty word search, making every recruiter a sourcing expert
- Source from your Bullhorn database and external sources within Textkernel
- ✓ Multilingual search capabilities

Match candidates to your database and the entire job market. Then fine-tune using your market knowledge and insight

- Create a match directly from a job order or a candidate profile in just one single click
- Textkernel creates the match query with one-click and then puts the power back into the hands of the user to adjust the weighting of criteria and add terms or modify the search.
- Easily and quickly redeploy candidates rolling off projects
 through our seamless integration with Bullhorn field mappings
- Increase ROI on sourcing by matching your number 2, 3 and 4 candidates to all direct employer jobs in the market with Jobfeed and increase your placements and win new customers

Identify new business opportunities and gain competitive labor market insights

- ✓ Get the highest quality leads delivered to your inbox, daily
- Import job posting leads directly from Jobfeed to Bullhorn as a lead record and track those leads – all in one click
- Save at least 1 hour, per recruiter, per day on identifying new business
- Increase your sales efficiency and business development output by focusing on opportunities with a higher chance of success
- Gain real-time labor market data to provide your customers with key insights they don't have
- React immediately to market changes with automated, daily updates, saved searches and an intuitive UI to find out which companies are hiring and in what city or state.
